## MATERIAL SAFETY DATA SHEET

### General

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. Please do not ingest either the separate components A and B nor the cured rubber. Please keep fluid components as well as cured rubber away from children for danger of suffocation.

### First-aid measures

#### After inhalation

Let in fresh air.

#### After skin contact

Immediately remove all contaminated clothing. Wash away with soap and water and rinse.

#### After eye contact

Remove contact lenses, keep eyelids open. Flush with plenty of water (10 - 15 min.). Call a physician.

#### After ingestion

Drink plenty of water. Call a physician. Keep at rest.

### Fire-fighting measures

#### Suitable extinguishing media

Alcohol resistant foam, CO<sub>2</sub>, powders, water spray.

Do not use a water jet

### Accidental release measures

#### Environmental precautions

Do not empty into drains. If the product contaminates lakes, rivers or sewages, inform appropriate authorities in accordance with local regulations.

#### Methods for cleaning up/collecting

Remove mechanically, take-up residues with absorbing material. Wash away.

### Handling and storage

#### Information for safe handling

Avoid contact with skin and eyes. Do not eat or drink during work - no smoking. Comply with the health and safety at work laws.

#### Requirements to be met by storerooms and containers

Containers should be kept dry and sealed.

#### Information about separation of incompatible products

Keep away from oxidizing agents, from strongly alkaline and strongly acid materials.

#### Further information about storage conditions

Always keep in containers of same material as the original one. See also instructions on the label. Avoid heating and direct sunlight.

### Exposure controls/personal protection

#### Additional information about engineering measures

No particular measures required.

#### Respiratory protection

None, but avoid breathing vapours if possible.

#### Hand protection

Use protective gloves.

#### Eye protection

Use safety glasses.

### Stability and reactivity

#### Conditions to avoid

Stable under recommended storage and handling conditions (See section storage).

#### Hazardous decomposition products

Occurs only when boiling point is reached.

#### Toxicological information

There are no data available on the preparation itself. The product was classified in toxicological terms on the basis of the results of the calculation procedure outlined within General Directive on Preparations (1999/45/EC). This product is unlikely to harm health, given normal and proper handling and hygienic precautions.

#### Ecological information

Do not empty the product into drains and waters without primary treatment and do not store on public depositories.

#### Disposal considerations

In accordance with local official regulations.

#### Other information

The details in this material safety data sheet satisfy national and EC legislation. We have no knowledge or control over the user's working conditions however. The user is responsible for the observance of all required statutory provisions.
